

REASONS TO CONSIDER

Attractive Yield

BANK expects to pay monthly income and its index has historically offered higher yields than term deposits, government bonds and corporate bonds.

Convenient and Cost-Effective

A cost-effective package that holds three types of fixed income securities across the banking capital structure (senior bonds, subordinated bonds and hybrid securities) that can be used for income enhancement, capital preservation, and broader diversification.

Trusted Source of Income

Australian banks are known for being some of the most credible and robust financial institutions in the world. BANK is the only index-based ETF offering exposure to the broader capital stack of Australia's banks in one diversified solution.

INDEX DESCRIPTION

The Solactive Australian Bank Credit Index is designed to track the performance of AUD-denominated Australian senior and subordinated bonds and hybrids issued by APRA-regulated Authorised Deposit-Taking Institutions (ADIs). Corporate bonds must be rated at least investment grade, have at least \$500 million outstanding in value, and have a minimum of one year to call/maturity at each rebalance date. The Index weights the fixed income security components in the following proportion:

Fixed Income Security	Index Weighting
Senior Bonds	40%
Subordinated Bonds	30%
Hybrids	30%

The underlying securities within the Index are weighted based on market value and is rebalanced on a monthly basis.
