

REASONS TO CONSIDER

Targeted Exposure

GOLD is backed by physical gold. Each physical bar is segregated, individually identified and allocated.

Appeal of Gold

Historically, investors have turned to gold as a potential store of value – particularly during periods of volatility.

Simplified Access

In a single trade, GOLD delivers low-cost access to physical gold via the stock exchange and avoids the need for investors to personally store the bullion.

ABOUT THE PRICING

Each individual Global X Physical Gold Security has an effective entitlement to gold, and that entitlement changes daily to reflect the accrual of the management fee.

Authorised participants create and redeem Global X Physical Gold Securities by delivering or receiving gold that conforms to LBMA standards.

Global X Physical Gold Securities are traded on exchange with a price that is based on the spot price of gold in Australian dollars multiplied by the applicable metal entitlement.
