Audit Procedures

1. Compared the records of the Custodian to the records provided by the Administrator to verify that the platinum bars are held in the name of the applicable account;
2. Reconciled the total weight of platinum bullion as recorded by the Administrator to the records of the Custodian as at the Audit Reference Date;
3. Visually checked each bar for the bar number, brand and purity;

4. Weighed a random sample of platinum bars, equating to approximately 5 percent of the bar list. The bars were weighed in troy ounces to the nearest thousandth of an ounce. Details of each bar weighed were recorded;
5. Reconciled the physical movement of platinum bars which occurred during the inspection period between the Audit Reference Date and the Audit Completion Date.

Non-conformities

There were no physical non-conformities identified in respect of the platinum bars during the audit.

There were no administrative non-conformities identified in respect of the platinum bars during the audit.
