1. General Information

ETFs Metal Securities Australia Limited (the “Company”) is a public company incorporated and operating in Australia and admitted to the official list of the Australian Securities Exchange (“ASX”) under the AQUA rules. The Company’s Metal Securities are quoted on the ASX under the following codes:

ETFs Physical Gold GOLD
ETFs Physical Silver ETPMAG
ETFs Physical Platinum ETPMPT
ETFs Physical Palladium ETPMPD
ETFs Physical PM Basket ETPMPM

The address of the registered office and principal place of business is Level 7, 50 King Street, Sydney, NSW 2000. The Company is domiciled in Australia and is a for-profit entity. The Company specialises in the development and issuance of Exchange Traded Products (“ETPs”). ETPs are transparent securities designed to track the value (before fees and expenses) of the underlying commodity, index or currency while providing market liquidity for the investor. ETPs typically are not actively managed, are significantly lower in cost when compared to actively managed mutual funds and are easily accessible to investors.

The purpose of the Company is to provide a vehicle that permits trading of the Metal Securities, not to make gains from trading in the underlying Metal Bullion assets themselves. The Metal Securities are issued under limited recourse arrangements whereby the Company has no residual exposure to price movements of the underlying assets, therefore from a commercial perspective gains and losses in respect of Metal Bullion will always be offset by an equal and opposite loss or gain on the Metal Securities.

The half-year financial report was authorised for issue by the directors on 27 September 2022. The directors of the Company have the power to amend and reissue the financial statements. The financial statements are presented in Australian Dollars, which is the Company’s functional currency.

Administrative Services and Economic Support

The Company has entered into an Administration Services Deed Poll with its related party, ETFs Management (AUS) Limited (“ETFSA”), whereby ETFSA is responsible for supplying or procuring the supply of all management and administration services required by the Company.

Under the Administration Service Deed Poll, ETFSA is entitled to:

- i). A Management Fee which is calculated by applying a fixed percentage to the contractual value of Metal Securities in issue on a daily basis; and
- ii). Creation and Redemption Fees on the issue and redemption of the Metal Securities.

No Creation or Redemption Fees are payable when investors trade in the Metal Securities on a listed market such as the Australian Securities Exchange.

In consideration of fees earned in managing the Company and its investments, ETFSA provides or procures all management and administration services in connection with the issue and management of the Company’s Metal Securities, required by the Company. Pursuant to this Deed Poll, all the operating costs relating to the Company including gold storage, gold insurance, marketing and administration costs, and compensation of directors and executives were incurred and paid by ETFSA to enable the continued operation of the Company.

2. Summary of Accounting Policies

The main accounting policies of the Company are described below.

Statement of compliance

This half-year financial report is a general purpose financial report which has been prepared in accordance with the *Corporations Act 2001* and AASB 134 *Interim Financial Reporting*. Compliance with AASB 134 ensures compliance with IAS 34 *Interim Financial Reporting*. The half-year financial report does not include all notes of the type normally included in an annual financial report and should be read in conjunction with the most recent annual financial report.

Basis of preparation

The half-year financial statements have been prepared under the historical cost convention, except for the revaluation of certain non-current assets and financial instruments. Cost is based on the fair values of the consideration given in exchange for assets. All amounts are presented in Australian dollars, unless otherwise stated.

The accounting policies and methods of computation adopted in the preparation of the half-year financial report are consistent with those adopted and disclosed in the Company's annual financial report for the financial year ended 31 December 2021, except for the impact of the Standards and Interpretations described below. These accounting policies are consistent with Australian Accounting Standards and with International Financial Reporting Standards.

While the COVID-19 pandemic has caused uncertainty and market volatility during the period, the Company has continued to follow its established policies and process in preparing the financial report. No changes were required to the principles used in the measurement of assets and liabilities. The directors have made an assessment of the impact of the COVID-19 pandemic on the results from operations and its financial position. In the opinion of the directors, the Company's results for the period and overall financial position as at 30 June 2022 have not been significantly impacted. The directors will continue to monitor any potential impact that the pandemic may have on the operations of the Company and its financial position.

The following significant accounting policies have been adopted in the preparation and presentation of the financial report:

Overdraft Facility

JPMorgan Chase Bank ("JPMorgan") has provided an overdraft facility (the "Overdraft Facility") to the Trustee to facilitate the movement of Metal Bullion between unallocated and allocated physical stocks to ensure all Metal Securities issued by the Company are supported by holdings of Metal Bullion in allocated form. The Overdraft Facility is denominated in ounces of the underlying Metal Bullion, and is repayable in ounces of the underlying Metal Bullion.

2. Summary of Accounting Policies (continued)

Impairment of Assets

At each reporting date, the Company reviews the carrying amounts of its tangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. An impairment loss is recognised in profit or loss immediately, unless the relevant asset is carried at fair value, in which case the impairment loss is treated as a revaluation decrease.

Borrowings

Borrowings are recorded initially at fair value, net of transaction costs. Subsequent to initial recognition, borrowings are measured at amortised cost with any difference between the initial recognised amount and the redemption value being recognised in profit and loss over the period of the borrowing using the effective interest rate method.

Loans and receivables

Trade receivables, loans, and other receivables are recorded at amortised cost less impairment.

Payables

Trade payables and other accounts payable are recognised when the parent company becomes obliged to make future payments resulting from the purchase of goods and services.

3. Revenue and costs

Pursuant to the arrangements under the Administration Services Deed Poll with ETFSA as outlined above in note 1, the Company recognised no income or expenses for the half-year ended 30 June 2022 (2021: AUD Nil). In accordance with this Deed Poll, ETFSA earns management fees of:

	Half-year ended 30 June	
	2022	2021
	AUD	AUD
Management fees	5,834,797	4,684,158

No director has a service contract with the Company. The directors of the Company who were employees within the ETFs Capital Group did not receive separate remuneration in their capacity as directors of the Company. The directors of the Company who are employees within the Mirae Asset Global Investments Group did not receive separate remuneration in their capacity as directors of the Company.

Capital reserves will remain at AUD 250,100 (2021: AUD 250,100); the directors consider this is sufficient to maintain on-going operations and the continuing issue of the Metal Securities.

4. Income Tax

Under the terms of the Administration Services Deed Poll between the Company and ETFSA, the creation and redemption fees and monthly gold sales charge are paid directly by Holders to the management company (ETFSA) and the management company pays all expenses required to facilitate the Holders' investment in the Company, including income taxes. This arrangement means the Company has received no income and incurred no liabilities or expenses, and therefore no income tax expense is recorded for the half-year ended 30 June 2022 (2021: AUD Nil).

- Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).
