## INDEX DESCRIPTION

The Global X US 100 Index aims to track the performance of 100 of the largest innovative companies listed on the US market on either the NASDAQ or NYSE. Companies are screened for an innovation filter based on Research and Development (R&D) spending and intangible assets. Only companies in the following industries are eligible: Semiconductors, Telecommunications Equipment, Chemicals: Specialty, Packaged Software, Internet Software/Services, Cable/Satellite TV, Other Consumer Services and Internet Retail. Companies are weighted by market capitalisation. Individual securities are capped at 14%, with the total weight of the top eight companies capped at 47.5%. The index follows an annual reconstitution at the close of the last trading day in November. A quarterly rebalance occurs after the close of the third Friday of March, June, September and December each year.
